## *Errata*

In the article by Christine P. W. Wong, "Fiscal Reform and Local Industrialization: The Problematic Sequencing of Reform in Post-Mao China," which appeared in the April 1992 issue, two errors were introduced by the printer.

Page 209: There should be no parentheses in the equations. The relevant portion of the affected equation should read:

2. If  $E^* > Y_t$ ,  $a_1 = 1$ , and  $a_2$  is set such that

$$E^* = Y_t + a_2 Y_a, \text{ where } 0 < a_2 \leq 1.$$

Page 212: Again, there should be no parentheses in the equations. The relevant portion of the affected equation should read:

- If  $E^* \geq Y_t$ , then  $b$  would be set equal to 1, and

$$E^* = Y_t + S.$$
